- Networking (REST API, HTTP, JSON)
- RDBMS (PostgreSQL / MySQL)
- Docker
- JIRA, Git

## LANGUAGES

- Ukrainian (native)
- Russian (native)
- English (B2)

## PROFILE

I am a Python developer from Ukraine, and I started learning to code when I was 16. Since then, my goal has been to become a highly proficient backend developer. I am committed to working hard to achieve this goal.

## WORK EXPERIENCE

### PYTHON DEVELOPER

YouToo

*October 2023 — March 2024*

- Used the FastAPI Framework to build key features of application. As the result, the MVP version of the project was finished and prepared for deployment ahead of schedule.

### BACKEND DEVELOPER

Parsalytics

*February 2023 — October 2023*

- Planned and created the project's architecture, that is future proof and scalable.
- Developed a unit test suite, which increased test coverage to 90% and significantly reduced the number of bugs and improved stability.

### PYTHON DEVELOPER

Freelance and Self-Employment

*June 2022 — May 2023*

- Worked as a freelancer for American students, successfully completing tasks for more than 15 students who gave positive feedback.
- Worked on various projects, where I also served as a mentor. As a result, the development process became faster and more organized, making it more systematic and efficient.
